6:00-8:30 p.m. Dinner, Program, and Awards Ceremony

At Machut's Supper Club in Two Rivers. After dinner program: **The Life and Times of the Historic Fish Tug *Palmer***. Ron Luttrell of Racine, an expert boat modeler and maritime historian at the Kenosha Southport Lighthouse, will share historic photos and the intriguing story about the *Palmer's* long career on Lake Michigan, including a bit of mystery and her sad fate. Awards will be presented after the dinner and program.

Sunday, May 19th

9 a.m. Museum opens. Outdoor pond available for r/c modelers until mid-afternoon, weather permitting.

10 a.m. Modeler's Morning Mash-Up Topics and speakers TBA.

2 p.m. People's Choice Award presented Following this award presentation, models may be removed from the museum. Photographs of event participants and award recipients will be taken at this time.

43rd Annual Midwestern Model Ships & Boats Contest & Display
May 17-19, 2019 A Nautical Research Guild Associated Contest

Categories

Category I: Scratch-Built Models

Models that did not originate from a kit. Kit parts may be used in the model. But more than half of the model, including the hull, must have been fabricated by the modeler. All media.

- Class A: Vessels at a scale of $3/32'' = 1$ foot or smaller
- Class B: Vessels at any scale larger than $3/32'' = 1$ foot

Category II: Kit Models

Models based on commercial kits or hulls with or without the addition of scratch-built parts. This includes kit models that have been modified from the original instructions and any model with at least half of its materials comprised of pre-made commercial pieces.

- Class A: Wood of any scale (ivory and bone, paper cardstock and metal may be used on the wood model).
- Class B: Plastic of any scale (includes laboratory-made materials such as resins and fiberglass).

Category III: Operational Models

Models will be judged on the static criteria of the model. Quality of operational installations will be considered. No classes.

Category IV: Dioramas

Display must tell a story. Ships-in-bottles may be considered for this category. No classes.

Category V: Nautical Crafts

Category V: Nautical Crafts

Models and craft items that are nautically related such as cannons, anchors, figureheads, nautical decorations, maritime carvings (figureheads, fish, water creatures, waterfowl) or crafts made from nautical items, etc. Models that do not fit into Categories I-IV may be included in this group. No classes.

Awards

The judges will be recognized ship model/art authorities invited by the Wisconsin Maritime Museum. Judging criteria will include general impression of the model and research, historical accuracy, and construction value based on written papers. The judges' decisions are subjective and based upon current established standards. All models will be judged by these standards and not against each other. The judges' decisions are final.

GOLD, SILVER, AND BRONZE Awards will be presented for entries that meet those levels of judges' standards in each category or class. If no model in a category or class meets the judges' standards, awards may not be presented. This criterion includes the following special awards:

WISCONSIN

Coming from the east? Consider riding the SS *Badger* car ferry!

PLEASE NOTE THAT THE SS *Badger* CAR FERRY FROM LUDINGTON, MICHIGAN WILL START ITS SAILING SEASON ON MAY 10th. IF YOU THINK THIS WILL HELP YOU WITH YOUR TRAVEL PLANS, PLEASE VISIT <http://www.ssbadger.com/> or call 800-841-4243.

Questions about the contest? Please contact Wendy Lutzke at 920-242-4943 or email wendy.lutzke@gmail.com

Looking for a fun start to your day on Saturday morning? Visit Woodland Dunes Nature Center in Two Rivers for Bird Breakfast and Migration Celebration from 8:00-11:00 a.m.! Adults are \$6 which includes breakfast (ham and pancakes) and guided bird and nature hikes. No need to pre-register, just come with shoes for outdoor trail walking! Visit <http://www.woodlanddunes.org/> to learn more about the nature center and preserve.

43rd Annual Midwestern Model Ships & Boats Contest & Display
May 17-19, 2019 A Nautical Research Guild Associated Contest

Please read the Rules and Conditions of Entry carefully before mailing the entry form.

Rules and Conditions of Entry

1. The contest and display are open to all model ship builders regardless of age or modeling expertise. Contestants may enter as many models as desired. Each model must be the sole work of the entrant. A model may not be entered for an award in multiple categories. Models previously winning an award in this contest are not eligible for contest entry but may be included for display.
2. Each entrant **must submit an official entry form for each model by May 3, 2019.** Each entry form must be accompanied by payment according to the chart on the entry form.
3. Each model **entered for award competition** must include a one-page historical account on the actual ship or type of vessel the model represents. This account must appear typed on a single 8 1/2 by 11-inch sheet of paper. The preferred format is 5-15 bullet points, but prose is also accepted. Newspaper, magazine articles, photographs or other written documentation may be displayed with the model but will not be used for judging.
4. Each model entered for award competition must also include an account of model construction. Special materials, tools, and techniques should be highlighted. This account must appear typed on a single 8 1/2 by 11-inch sheet of paper. The preferred format is 5-15 bullet points, but prose is also accepted. Newspaper, magazine articles, photographs or other written documentation may be displayed with the model but will not be used for judging.
5. The Museum suggests that all models be cased. The Wisconsin Maritime Museum is not liable for damage to models that are entered in the contest or display. Entries are not covered by insurance; however, each model will be considered a fine arts item and will receive the care and handling that such items deserve.
6. All models must be put in place no later than noon Saturday, May 18, 2019. The Museum will only accept models by mail if prior arrangements are made with Wendy Lutzke. Contest winners will be announced on Saturday night, May 18th at Machut's Supper Club. The People's Choice Award will be presented at 2:00 p.m. Sunday, May 19th. **Models are required to be displayed until AFTER the People's Choice Award is presented at 2 p.m. on Sunday. Early departure of entered models without prior approval by Wendy or Kurt may result in the modeler being denied participation in future contests.**
7. The Wisconsin Maritime Museum and the Nautical Research Guild reserve the right to describe and photograph any entry and to make use of the descriptions and photographs in any way the Museum and Guild may deem appropriate.

43rd Annual Midwestern Model Ships & Boats Contest & Display
May 17-19, 2019 A Nautical Research Guild Associated Contest

Contestants' Information

Each model in the Wisconsin Maritime Museum's Model Ships and Boats Contest is judged upon Areas of Inspection which include an Historical Account Paper, a Construction Account Paper, Historical Accuracy of the Model, Construction Value of the Model, and the Model's Overall Appeal.

Each model is looked at with individual merit and not judged against other models in the contest. A point system has been developed by the Contest Committee and applied to the Areas of Inspection with relation to the category the model is in. The judges' decisions are based upon these standards but are subjective. Awards might not be presented in a particular category, if no models reach required point totals. This includes all special awards. All judging decisions are final. Judges are not obligated to discuss the final outcome of the contest. Therefore, debate of point values or changing of awards will not be discussed. Any questions or comments on the judging procedure should be addressed to the Contest Chairman. A Level of Entry may be upgraded if the judges determine the contestant's entries are of a quality to compete in the next level.

Areas of Inspection for All Models

Historical Account Paper: Each model must have an historical account of the ship or type of ship the model represents. This write-up should give a brief history of the vessel being modeled. This should be on an a single 8-1/2" by 11" sheet of paper, typed. The preferred format is 5-15 bullet points, but prose is also accepted. This should be in the model builder's own words. Magazines, newspaper articles, and photographs or other written documentation may be displayed but will not be used for judging purposes. The Historical Account Paper **MUST** be separate from any magazine, newspaper articles, and photographs.

Construction Account Paper: Each model must have a construction account. This should be on a single 8-1/2" by 11" sheet of paper, typed. The preferred format is 5-15 bullet points, but prose is also accepted. This write-up should completely outline the construction methods used to build the model.

Ideally, this will include materials used, special tools, jigs, or fixtures used or fabricated to produce the model, time involved, unique construction techniques, etc. If there is a special circumstance about the model that the modeler wants to point out, it should be included in this paper.

Modifications to kit based models should be pointed out, and after-market parts added should be identified here. Magazines, newspaper articles, and photographs or other written documentation may be displayed but will not be used for judging purposes. The Construction Account Paper **MUST** be separate from any magazine, newspaper articles, and photographs.

Historical Accuracy: Models will be judged on the basis of any anachronisms or details that are out of place in time. These can be incorrect flags, improper fittings on masts and spars, color schemes, etc. Since there may be reasons for some unusual details, it is wise to include an explanation in the Historical Account Paper. If this explanation seems valid and the judges cannot find evidence to the contrary, no points will be deducted.

Construction Value: Craftsmanship will count for the greatest point value. Be alert to the following problem areas:

- Symmetry and proportionality
- Joinery of the various components
- Neatly prepared metalwork or other appropriate material
- Smoothness of finish coatings
- Neatness of assembly (are there glue spots, paint smears, etc.)

If any operational equipment is installed, does it inhibit the visual appearance of the model? Does operational equipment appear to be functional? Operational models will be judged as static, but it will be taken into account that certain construction processes are different from non-operational static models (i.e. hatchways and decks sections must be made to open for access, etc.). In the case of Nautical Crafts, consideration will be taken into account that the item might be more of an artistic piece. Even if models are not historically accurate, they should still be built well.

Overall Appeal: The model will be evaluated on its overall visual appeal and the effectiveness of the display technique employed.

CATEGORIES OF JUDGING – ALLOCATION OF POINTS ALLOCATION OF POINTS – Category V – Nautical Crafts

Historical Account paper	1-10	Historical Account Paper	1-2
Construction Account paper	1-10	Construction Account Paper	1-2
