What's it like being at a museum at night? Does it feel different from it would during the day?

Interview the staff! What is their shift like? Have they worked the night shift at another job? How does working nights affect other parts of their life?

Lay on the deck and look at the stars. (or the Roof Deck for less light) do you see? Can you find any constellations?  
If it's cloudy, create your own nocturnal animal. Make a sketch and describe its special night senses.

Explore the galleries by flashlight! What can you find? How does it feel like exploring the museum by flashlight?
